

Accounting for Consultants

Instructor: Tony Kiratsous
8 hours.

Are you a great coder and want to break into Hyperion Consulting, but lack the needed accounting skills? Then this course is for you! It will get you up to speed fast!

The course instructor is a former Fortune 500 Corporate Accounting Manager, who is also an active Hyperion Consultant. The course is designed to teach you the skills needed by a Hyperion financial systems consultant to be successful. In particular, this course is designed for those that have no previous education or training in accounting.

In this workshop, you will learn:

- The “alphabet” of accounting so that Consultants can learn to speak in “full sentences” at the client

- Fundamental concepts
- The Accounting Equation
- The Accounting cycle
- Journal Entries
- Financial statements
- Accounting Methods
- "T" accounts
- Comprehensive Example:
 - Analyze transactions and events and process them one at a time, carrying them all the way to the financial statements
 - Reinforce the impact of each event on the financial statements as a whole
 - Review the mechanical steps that get us from journal entries to financial statements
 - Show the accounting cycle in its entirety.
